THE STATESBORO NEWS.

Statesboro, Ga. May 19, 1903.

Has Cured Thousands, Will Cure You.

If you are troubled with Kidney or Bladder troubles, such as Dropsy, Bright's Disease, Catarrh, Gravel, the Bladder, Abnormal in urine and unhealthy deposits, or too frequent discharge of the urine, pain in the back and bladder, dropsical swelling of the feet and legs, etc., we guarantee that by using Smith's Sure Kidney Cure, a complete cure will be effected.

Price 50c and \$1.00. For sale by S. J. Crouch.

Cotton Insects Here.

Mr. J. C. Deal was in town one day last week and tells us that already he has noticed on his peach trees, a small striped fly, the same kind which came near destroying his cotton crop last year. Mr. Deal said he only made four bales on 25 acres of land, and the short yield is due to this same kind of fly which he noticed on his peach trees a few days ago.

The fly sucks the substance out of the cotton bloom and causes it to drop off, and he thinks if this is the same fly, which he believes it is, that he hopes no good to the cotton planters of this section. He has tried all kinds of remedies to destroy this nefarious visitor, but as yet to no avail.

GREATLY ALARMED.

By A Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burgh, a student at law in Greenville, S. C. had been troubled for four or five years with a continuous cough, which he says greatly alarmed him, causing him to fear that it was in the first stage of consumption. Mr. Burgh having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the size, was permanently cured." Sold by all druggists.

The Government has refused to move the leper from Tybee island. They contend that he is isolated, and there is no danger of contracting the disease except by personal contact.

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than seventy-five per cent of the people in the United States are afflicted with these two diseases and their effects; such as sour stomach, sick headache, habitual constipation, palpitation of the heart, heart-burn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist and get a bottle of August Flower for 25 or 75 cents. Two doses will relieve you. Try it.

S. J. Crouch.

If you want good goods for the least money, call on C. A. Wilson at Harville. He is just opening up a full line of general merchandise. Everything fresh and new.

Grand Jury Presentments.

We the Grand Jury, at the April Term, 1903, beg leave to submit the following presentments:

The Committee appointed by the last Grand Jury to examine the books of the various county officers, have made the following report:

Statesboro, Ga. April 9, 1903.

To The Hon. Foreman and Members of the Grand Jury, Spring Term, 1903, Gentlemen:

The undersigned Committee appointed by the Grand Jury, Fall Term 1902, to examine the books and records of the various county officers, respectfully submit our report as follows:

We find the records of the County Court Judge correct and neatly kept. The books and records of the Clerk of the Superior Court we find neatly and well kept. The systematic arrangement of the affairs of this office we commend.

The books and records of the Sheriff we find correct. The Tax Receivers Digest very neatly kept, but we note a number of instances where parties making returns were not recorded in their proper districts thus causing confusion and in some cases errors in the payment of the taxes.

The books of the Treasurer we find kept in a neat and business like manner. We find to the credit of the Treasurer in the banks here amounts as follows:

General fund \$6,263.95
Fines and forfeitures \$9.50
We find the Tax Collector has made a full settlement with the Ordinary for the year 1902. The total taxes collected and paid to the Treasurer being \$15,785.96.

An examination of the books and records of the Ordinary's Office is entirely satisfactory, we find the records neatly and correctly kept.

Jas. A. Fulcher, (Chairman)
Com. W. C. Tucker
Brooks Simmons.

By reference to the dockets of the Justices of the Peace and Notaries Public, and particularly of the 40th District and the 1200th District, we note in one instance that the entries thereon show arrest of parties and following such entries we find that parties so arrested are discharged at the prosecutor's instance, other entries showing cases settled by parties. Attention to our order is called to these matters in order that these officials may become more particular in their management and conduct of the criminal business which comes before their courts. We deem it improper that they should allow cases settled or improperly dismissed at the Prosecutor's instance. We further note that in some instances parties who are arrested and confined in the common jail of the county and shortly thereafter are discharged, and entries made showing that they are dismissed for the want of prosecution on the part of those who take out warrants against them originally. This practice we condemn for the reason if there was no case against the defendant, he should not have been arrested, and if there should have been a case the same should have been duly prosecuted. We, therefore recommend that the provisions of section 923 of the penal code be observed so that jail fees will not be taxed against the county unless the committing Court should deem that there is a case against the defendant.

We beg leave to make the following recommendations:

1. That the Ordinary of this county confer with the Ordinary of Tattnall county in regard to building a bridge across Canoechee river at or near Turkey Creek and that this county pay \$500.00 toward the building of same.

2. That the Ordinary confer with the Ordinary of Screven county in regard to repairing the bridge across Ogeechee river, opposite Oliver, and if satisfactory arrangements can be made that same be repaired.

3. That the Ordinary confer with the Ordinary of Emanuel county in regard to bridging Sculls creek on Hill Road and build same, if satisfactory.

4. That the Ordinary build a bridge across Lott's creek, at or near Clark's mill.

That Mary Abundance allowance be increased from \$4.00 to \$6.00 per month and that same be placed in hands of W. C. Atkins.

That Providence Hodges be paid \$2.00 per month, and paid to D. A. Brannen.

That Georgiana Hodges be paid \$2.00 per month.

That Frank Holland be increased from \$2.00 to \$3.00 per month.

That Charles Higgins be increased from \$2.00 to \$3.00 per month, and paid to John S. Neessmith.

That Della Brown be increased from \$5.00 per month and paid to J. A. Warren.

That Mrs. Cynthia Barnes' allowance be paid to C. R. Arons.

That Jack Kirkland's allowance be paid to Jasper Parish.

That Mrs. Bettie Page's allowance be increased from \$3.00 to \$5.00 per month.

That Mosely Woods' allowance of \$3.00 per month be discontinued.

That Chaney Jones be paid \$2.00 per month, and placed in the hands of M. J. McElveen, Jr.

7th. Upon examination of the pen-

Another Court House Let.

For many years there has been a constant warring for removal of the County Seat of Wilcox county from Abbeville to Hobeleville. The question has figured in every election from constant to ordinary for twenty years, and has even reached the Georgia legislature.

The majority of the voters have frequently voted for the opposition to Abbeville and the opposition candidates for the various offices have nearly all the time been elected, but Abbeville has managed some way to keep the county seat, and now they have let the contract for a \$10000.00 building.

A building of the size and dimensions to cost a sum like that, ought to sit heavily enough so as to preclude any further possibility of any more removal talk. In the meantime the \$10000.00 proposition will sit heavily on the pockets of the tax payers.

"LUX MUNDI"

Is man dependent for a code of morals, on the Bible? Is conscience with the aid of reason solely, a correct moral guide? This question in one form or another has been agitated repeatedly. When a sophomore, we discussed it in our literary society. It reappears now and then in connection with the use of the Bible in our public schools.

On account of some utterances at our last teacher's meeting that I ask space for a few statements.

As to what might have been, but for the tragedy of Eden, I know not. But with our present environment with our mental and moral impotency and disabilities, in the conflicts and subduing of life, I undertake to say we are absolutely in need of a divine revelation, such as the Bible supplies. I believe it was Sir Walter Scott, when on his death bed, asked his nurse to hand him "The Book." "Which book?" queried his nurse. "There is no other book," replied Sir Walter.

The celebrated novelist had been present at our recent Institute, he would have been informed that the Bible, so far from being the only Book, is really not a very important book. Of course it is well read for what had been before it was superseded by works of Ingels and the scientific investigations of modern research. I was reminded of the fable of the lightning bug conversation.

An assembly of these lightning bugs resolved that the sunlight being so inferior to that radiating from their bioluminescence, it be the future be deemed so.

We mean by "Code of Morals," the ethics of conduct or sense of duty. Let us not be misunderstood. The Bible makes no war on reason. Paul reasoned to Gov. Felix, of righteousness, temperance and judgment to come.

"The Bible is not a production of superstition. Christianity is not a myth. We are not called on to follow cunningly devised fables. It may contain doctrines about the grasp of reason but it is far from being absurd. Infidelity has surely had a fair showing. If it has ever produced any system of ethics superior to the "Deologue" of the Mount, or the "Sermon on the Mount," or the 11th Psalm, we have not seen it.

Are we, as teachers, expected to develop the moral faculties of our pupils and yet be told that we must not go to the Bible as the source of authority on morality. For one, I shall thank the boy placed under my care, that he cannot be a man of ordinary intelligence without familiarity with the contents of his mother's Bible. That he will be an "ignoramus" unless he be a student of the Bible. I shall tell him that the Family Bible is our "Magna Charter" the very foundation of our laws, our literature, our civil institutions and government. The only agnostic among the teachers of this county that I know of left the county in disgrace.

"Wherein shall a young man cleanse his way?" That is how shall he keep clean in mind, body, business, politics and homelife? "By taking heed to the commandments of God, to whom shall we go for a model in all that makes life worth living? Not to Ingels but to the One who is the Sun of Righteousness and the "Light of the World."

Editor, my apology for this paper is the teacher is the greatest power today in society, for good or evil. Marion Blanton, Rebo, Ga. May 2-1903.

Hon. Madison Warren was in the city one day this week. Mr. Warren says the people of his section are anxious for the bridge across the Canoechee river, connecting the County with a large portion of Tattnall county. It has not as yet been decided just where the bridge will be built, whether at the Turner ford or a point below that.

Mr. Linton Cone is much improved since his trip to White Sulphur Springs, Fla.

There is not a single vacant store or dwelling in Statesboro at this time that we know of. Don't that bespeak prosperity for the town?

Take Kalola six days and eat any thing you want."

A teaspoonful dissolved in a glass of water makes a delightful and inexpensive aperient.

Price: 50c and \$1.00. For sale at drug stores and sent by mail.

Getting Wealth From Stumps.

Mobile Register.

The dreams of the most ambitious miser never compassed anything so wonderful for bringing a flow of gold as the yellow pine forest of a few southern states. The millmen have denuded millions of acres of forests—and the stumps and old dead limbs are worth even more than the lumber of the great tree. Science has made possible the utilization of every particle of the pine tree to the benefit of mankind. There are not many works where the different oils are extracted from "fat" pine by the retort process, but those in the business are simply cooking tremendous fortunes, and with a future that looks almost into infinity. A cord of pine knots, stumps, etc., which is the usual waste, costs delivered at the works, \$2.25 the cord of manufacture adds another \$1.22, making a total of \$3.47 per cord. After the sale of all the products of this wood the manufacturer has in his safe, from each cord of waste, \$38.00, this being the very low water mark when the market is at its worst.

There are several parties in this section now securing lands on which stumps and old trees and trash lie thick. They intend putting in chemical works and extracting some of the gold found in pine. Among them are two men from Chicago, but they are on entirely separate missions and neither knows of the presence here of the other. Mr. J. Frank Dye is down in the Bay Minette territory, and Mr. George Thomas is out from Mobile, as well as over in Baldwin county, across the bay. Both are representing moneyed men who wish to install an enterprise similar to that on the Mobile, Jackson and Kansas City railway, within a couple of miles of Mobile—the Southern Oil and Chemical Company. They are trying to get large tracts of land in this territory and are ready to pay spot cash for all they can get. If they can make contracts for all the "lightwood" on a place without buying the land so much the better, but if not they will purchase the whole thing.

The possibilities in this line are very large, though the territory is limited to the few southern states where the pine predominates. One thing that is detrimental to the industry, is the lumber interests, and to the welfare of all the people, it is claimed, is that men are allowed to box the young growth for turpentine. No tree, so they assert who ought to know, should be boxed under twelve inches, while truth is that many are boxing trees half that size. This has a new tendency in every way, as it stunts growth to a certain extent and makes poorer timber, it is dangerous to the health of the country, and it is not necessary when there are millions of acres where the pine, stumps, limbs, etc., will furnish better turpentine, and other valuable products, and the destruction of these young trees is much more than that of putting turpentine stills. Estimates are worked out from the actual daily findings in several of the big camps of the country, show that the average cord of wood will produce: 1st first extraction 20 gallons of turpentine.

From second extraction 12 gallons of oil.

From third extraction 8 gallons of oil.

From the two last extractions are secured twenty by-products, all of considerable value, and some of them very necessary to the commerce of the world, as creosote, with which piling is made impervious to sea waves, inflammation and cured him. It conquers cancer and kills pain. 25c at W. H. Ellis druggist.

A Quick Arrest.

J. A. Gullledge of Verbena, Ala. was twice in the hospital from a severe case of piles caused by 24 tumors. After Drs and all remedies had failed, Bucklen's Pile Cure was used, and he was cured. It cured him of indigestion and dyspepsia, and prevented or cured catarrh of the stomach. Kodol digest what you eat—makes the stomach sweet. Sold by W. H. Ellis.

Recent experiment, by practical tests and examination with the aid of the X-Rays, established it as a fact that catarrh of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. How can I cure my indigestion? Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrh of the stomach. Kodol digest what you eat—makes the stomach sweet. Sold by W. H. Ellis.

The school will close the first or second week in June.

Mr. Joseph Pomville, of Stillwater, Minn., after having spent over \$2000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard to try a box of Chamberlain's Stomach and Liver Tablets. He did so and is well man today. It troubled with indigestion, flatulence, constipation, give these tablets a trial, and you are certain to be made more pleasant with the rest of the world. Box 25 Fenbrook Ga.

NOTICE.

Getting Wealth From Stumps.

Mobile Register.</

In a double-headed editorial the Brooklyn Daily Eagle says that "millions of Americans again desire to make Grover Cleveland President of the United States" and that "he is today regarded as the only man who could beat Theodore Roosevelt." In closing its article, the Eagle says that Mr. Cleveland can and should be nominated in 1904 as the only man who could assuredly lead the party to victory.

Of course, the Eagle answers to its own satisfaction all of the arguments that are likely to be offered in opposition to its candidate; but what satisfies it will hardly satisfy Democrats generally. It is true, of course, that Mr. Cleveland has many friends in every part of the country, but as far as we are able to understand the drift of Democratic sentiment there is no very great demand for the nomination of Mr. Cleveland.

The Eagle and those who are in sympathy with it do not seem to think that Mr. Bryan's influence counts for much in the Democratic party. They are mistaken. He is still a power in the party, and will have a great deal to do with the making of the next Democratic platform and the naming of the nominee for President. It may be that he and his friends will not be able to dominate the nominating convention. The chances are that they will not, but they will be strong enough to prevent the nomination of a candidate that is as objectionable to them as Mr. Cleveland is.

It would be as much of a mistake to nominate Mr. Cleveland as it would be to nominate Mr. Bryan. Neither could be elected. Neither has the power to bring the factions of the party together, and without harmony in the party it would be impossible to elect the ticket.

The Bryan faction is saying that there is no need of reorganization, that all that is necessary for harmony is for those who were not in sympathy with the party in 1900 and 1904 to come back into the organization and accept the situation as it was mapped out to Kansas City in 1900. The Cleveland faction insists that there is need of what is called Bryanism. There is, therefore, no possibility of the two factions getting together with either Mr. Bryan or Mr. Cleveland as the leader in 1904.

A new man must be put forward as the leader, and a platform adopted upon which all Democrats can stand. Of course, it is going to be a difficult task to find such a man and to make such a platform. But we believe that it is possible to find the man and make the platform.

Here in the South there is much talk of Judge Parker and Senator Gorman. Some of the Republican papers are saying that Judge Parker will, in all probability, make a public announcement in the near future that he isn't a candidate—that he will do this because ex-Senator Hill of New York is seeking the nomination, and Judge Parker will not stand in his way. We do not know how much truth there is in this. The probability is there isn't much. But assuming there is a great deal, if Judge Parker should not be a candidate Senator Gorman's chances for getting the nomination would be increased. It is true, of course, that there is some opposition to him in the Bryan faction, but that would disappear if he be nominated. As far as our observation goes, the nomination of Mr. Cleveland is out of the question.—Morning News.

A Stroke of Heart Failure.

On last Thursday afternoon, Mr. C. A. Wilson was in Statesboro looking after some business matters. In the afternoon while preparing to get in his buggy, he expressed to Mr. R. F. Lester, who was with him, that he was feeling rather badly, and in less than a minutes time Mr. Wilson fell to the side walk, and for some time his condition was quite serious. A physician was summoned and Mr. Wilson was taken to the home of his brother Mr. J. W. Wilson, where he remained until Saturday, where he was sufficiently recovered so as to be able to be carried home. Mr. Wilson has a large number of friends who are pleased to know that he is now well again.

The stores have adopted the early closing in order to give the clerks a chance to walk around a little in the afternoon. They close at 6:30 p. m., with the exception of two or three. Parties having business with the merchants will take notice and not wait until too late to do their trading.

Dublin vs Statesboro.

On Thursday afternoon of this week at 3:30 p. m., the Dublin Base Ball Club will play the Statesboro boys a match game at the base ball grounds in South Statesboro.

The challenge came from the Dublin boys, who are coming down in force to "lay out" the "Statesboro Nine."

The home boys are in fine trim and will meet the Dublin crowd on the diamond and give them all they are looking for. The game will be quite an interesting one, and a large crowd will doubtless be on hand to whoop 'em up when our boys score a run.

The visitors will be the guests of their Statesboro friends while in the city. They are a clever set of young men, and we are glad to have them come down and have our boys show them how to play ball.

Will Open New Business.

Mr. C. A. Wilson, of Harville, was in the city one day last week and perfected arrangements with Messrs. J. W. Olliff & Co. of this place, whereby he will open a large stock of Dry Goods, Shoes, Clothing, Groceries and general merchandise at his place near Harville.

Mr. Wilson will buy through Messrs. Olliff & Co. and have the advantage of prices bought in large quantities, and therefore will be able to sell goods as cheap as they can be sold anywhere. He is a business man of long experience, and his friends and the public generally are pleased to know that he has re-entered the mercantile business. Surrounding his place is one of the best sections in Bulloch, and we see no reason why he should not get his share of the trade. He assures the public that their patronage will be appreciated, and their wants looked after with care and dispatch.

Mr. and Mrs. S. W. LeGrande, of Gainesville, Fla. have been visiting the parents of the latter, Mr. and Mrs. Charlton Green of Excelsior during the week. They also visited in Statesboro on yesterday. They returned home this morning.

Revival at Baptist Church.

The Baptists are conducting a revival service this week. Pastor McLemore is assisted by Rev. Mr. Shelton, pastor of the Baptist church at Chester, S. C. Mr. Shelton has delivered some excellent sermons and the people seem to be much impressed with him. Owing to the bad weather there has not as yet been as large an attendance as expected, but it is expected that from now on the interest in the meeting will grow. Mr. Shelton will be with us until Friday night. These services are held each day, morning, afternoon and night.

If you don't see it in today's issue, the chances are that it will appear in our issue on Friday.

The News is keeping step with the procession.

We are pleased to note the fact that Mr. E. W. Nance, whose illness was reported in our last issue is able to be out again.

Attention is called to the new adv. of Messrs. H. H. Lattimore & Co., of Savannah. This is one of the oldest hardware houses in Savannah. When in need of any thing in their line give them a call.

This issue is The News' Kid. We hope our readers will receive the Youngster with a warm welcome into the many hundred homes into which it will find its way.

Mr. B. Kitchens of the upper section of the county was in the city yesterday with two bales of sea island cotton and a lot of wool. This is the kind of a load of produce to bring to market.

Mr. Joseph Fletcher is with Messrs. B. B. Stokes Bros. of Rosewood, Fla. He writes back that he is very much pleased with his new location.

GRAND OPENING.

Statesboro Ice Mfg. Co. Starts Thursday.

Next Thursday at 4 P. M. the wheels will begin to turn, and the machines will begin to make ice at the plant of the Statesboro Ice Manufacturing Co. near the S & S depot.

Manager George respectfully invites the people of the town and country to turn out on that evening and see the start. An invitation is extended to the ladies to come and see how ice is made by machinery. A fine artesian well is furnishing plenty of water out of which the ice is made.

Mr. J. F. Fields left last week to prospect in the vicinity of Waycross.

We understand that The City Ice Co. have decided not to put in any machinery for the manufacture of ice this season, but will wait until another season to do so.

Mr. F. E. Fields took in the Baptist Convention in Savannah during the week.

Spring Chickens.

AND

EGGS.

They are in demand and prices are good.

We make prompt returns.

HOTCHKISS & NEVILL,

SAVANNAH, GEORGIA.

The Statesboro Ice Mfg. Co. are turning out their first charge of ice to-day. The charge consists of ten tons which is the first artificial or manufactured ice ever made in Statesboro.

The steam was turned on last Friday afternoon and the plant has been running ever since. It takes 80 hours to freeze the first charge, of course, it don't take that long after you get everything cold as it is down there now.

Hundreds of people have visited the factory since it began operation. Mr. George takes pleasure in showing those who call through the factory. The people and especially the ladies are invited out to the opening on Thursday afternoon at 4 o'clock.

The Savannah Press in netting the visitors to the Baptist Convention, said that Rev. J. S. McLemore of our town was very much like John C. Calhoun.

Read the new adv. of the Foran Food Co., in this issue.

Statesboro seems to be afflicted with a base ball boom just now.

Mrs. J. C. Trappell Passed Away Saturday Night.

Mrs. Minna Trappell died at her home near Metter on Saturday night.

Mrs. Trappell's death was a severe shock to the community, although she had not been enjoying the best of health, yet her death was not expected. She had started to visit her daughter, Mrs. Dr. Youmans at Adrian. She was at the depot waiting for the train. She suffered a stroke of heart failure, and was taken to her home a mile or so away, where she passed quietly away about midnight. The funeral was conducted by Elder C. B. Spivey at Lake church on Monday in the presence of a large crowd of sorrowing friends and relatives.

The deceased was a sister of Messrs. J. C. and J. M. Jones, of this place.

Death At Clito.

On Sunday at his home at Clito, Mr. Whalin died after an illness extending over several weeks. We failed to learn any further particulars of the death.

Ask For Warren's Place Before His Body Was Cold.

Governor Terrell received two checks yesterday. One was when he was notified of the horrible death of Major J. W. Warren, the secretary of the executive department; the other was when thirty minutes later he received two telephone messages at the mansion from two different parties asking that they be given the position which was held by the Major.

To say that the governor was horrified, expresses it mildly. Although he has been in politics for many years, has associated and mingled with politicians of all sorts, he never knew before that people were so grasping.

It goes without saying that neither of the applicants will get the place. Neither will anybody else who applied for it before the funeral of Major Warren is held. Governor Chandler adhered strictly to that rule while he was in office and Governor Terrell will do the same.—Atlanta Journal.

Stormy May.

A north-east shower began last Thursday, and continued up until Monday. At Savannah the wind blew almost a gale, and here in Bulloch, it was strong enough to blow down the oat crop.

Such weather in May is almost without precedent. It seems that nature has sipped a cog, and April and May took the place of February and March.

Miss Daisy Averitt, a beautiful and accomplished young lady of Statesboro is visiting her sister, Mrs. J. O. Strickland north of the village.—Bryan Enterprise.

Miss Cora Hendrix, a charming young lady of Bulloch county, has been visiting relatives in and around Graymont.—WireGrass Blade.

Mr. W. J. Strickland is in our town this week. We learn that Mr. Strickland will leave for New Orleans about the 15th inst, where he will spend quite a while. His daughters, Misses Hobie and Opelia, who are attending college at Lucy Cobb Institute, in Athens Ga., will return and spend the time with their brother, Dr. J. O. Strickland of this place during their father's stay in New Orleans.—Bryan Enterprise.

Mr. D. P. Averitt, a prominent business man of Statesboro, visited his daughter, Mrs. Dr. Strickland Saturday.—Bryan Enterprise.

A Texas editor wants to know what would be thought of men if they had their pantaloons made a foot or so too long and then went about holding them up. We suppose there would be a few more rubber necks than there are now, answers the Rome Tribune.

A rural editor in Illinois observes: "We prefer living in a small town where the people will sympathize with you in trouble, and if you haven't any trouble they will hunt some up for you."

Harford Post: "A man who hangs around the street corners spitting tobacco juice and lodging his hands in his pockets has no moral license to rail at men who have got rich by hustling."

Miss Minnie Franklin and brother of Bulloch county spent Monday night last in Dublin, guests of the family of Col. T. L. Griest. They were on their way to Hawkinsville to attend the Chautauqua.—Courier-Dispatch.

Jim Dumps was a most unfriendly man Who lived his life on a hermit plan. He'd never stop for a friendly smile, But trudged along in his moody style. Till "Force" one day was served to him— Since then they call him "Sunny Jim."

"Force"

Don't trade or sell your old sewing Machines. Bring them to T. A. Wilson and have them fixed to stitch as good as a new one. Repair of old parts guaranteed for one year, new parts put in guaranteed for five years.

NOTICE!

I will give ten cents of Soda Water to the customer who is most prompt in returning crates and bottles to us. We use all the popular syrups in making our Soda Water and while it gives satisfaction we want our crates and bottles back so we can supply the demand.

D. Barnes & Co.

SUNDAY IN STATESBORO

Last Sunday morning the writer accompanied by Messrs. Claude Sutton and Louis Proctor, went down to the charming little city of Statesboro on a visit to friends. We arrived there at 8:30 o'clock, and left at 7 p. m. on our return to Swainsboro.

Statesboro is enjoying a steady, substantial growth, and all its citizens have the greatest confidence in its future. It is a delightful little city of hospitable people, who ever extend a helping hand to all enterprises and a warm welcome to those going there to reside. It has a commodious college building in which there flourishes a school of several hundred pupils, two handsome brick churches, numerous beautiful residences and many magnificent business blocks. An ice factory has just been completed, and the town recently voted to issue \$30,000 worth of bonds for the purpose of establishing a system of electric lights and waterworks. It has two well regulated telephone systems, a Chinese laundry, a bakery and tannery and many other enterprises.

Possessing an enterprising and united citizenry and good transportation facilities, and breathing an energetic, refined and moral atmosphere, the attractions of Statesboro are many and its possibilities great.—Blade.

Local and Personal.

Fresh Jersey milk for sale. Apply to, Mrs. R. Lee Moore.

Build up the town by buying home-made Ice.

Miss Eva Robinson, who has been teaching a music class at Brooklet during the spring, left on Saturday morning for her home in Spring City, Tennessee. It was with much regret on the part of the people of Brooklet that they gave her up.

Carry your work, in the way of buggy painting, to J. G. Mitchell.

Mrs. Glisson, of Millen, visited relatives in Statesboro this week.

Mr. Shelly Glisson, of Hagan, visited in Statesboro on Sunday.

Mrs. J. A. Davis is visiting Mrs. G. H. Bell at Swainsboro, during the present week.

The babies cry for Ice from the factory.

Mrs. G. S. Johnston returned on Saturday from a ten days visit in Atlanta.

Patronize The Ice Factory.

Marshal Mitchell has been calling for the first installment of street taxes for 1903.

Hagan vs Statesboro.

Statesboro Anticipates Giving Hagan a Lively Ball Game.

On Thursday afternoon the Hagan Base Ball Team will come over and play Statesboro. Several of the Hagan boys were over on Sunday and arranged the game. The Hagan team will come on the 8:16 train on Thursday morning and will be the guests of the Statesboro team during their stay in the city.

The home boys are in first-class trim. They have just administered to Dublin a most wholesome lesson in ball playing and they will also let Hagan have a dose out of the same bottle on Thursday afternoon.

Hagan has a good team, and the boys over there play well but what Statesboro will do for them will be a plenty. A large crowd will go out to witness the game on Thursday afternoon.

Statesboro had invited Swainsboro to come down on that date but, in order to give Hagan what she has been hunting, they asked Swainsboro to postpone their trip to another date.

We have inaugurated a sunset prayer meeting for men at the Baptist church. Just at sun down, all the men of Statesboro are requested to meet there for a 30 or 40 minute prayer service.

J. S. McLemore.

The new Methodist church is nearly completed. When finished it will be one of the prettiest houses of worship in Georgia. One, of which, any town or congregation might well feel proud.

Mrs. Anna Potter and Miss Lela Wilson returned on Friday from Savannah where they have been visiting for the past month.

The Savannah & Statesboro Railway Co. has purchased a new engine, which will be put in service on the new road in a short time.
